

CASE STUDY

# EFIS

**Beezy**  
Your intelligent workplace

Yesterday Beezy was presented at the Governments Solution Forum in London from our Swedish Partner Softronic. The EFIS project is an inter-regional collaboration, run by the County Administrative Board of Västra Götaland, one of 21 county administrations in Sweden. The project focuses on empowering new immigrants and refugees to Sweden, providing an inter-agency approach to their human rights and social integration. The EFIS solution is an integrated web site that gives the newcomers "One Way In" to government services, information and roads for establishment in society.

The portal is built on Sharepoint 2010, with inter-agency networking and collaboration delivered through a Beezy add-on, hosted in a Partner Cloud. The next step for the project is Lync, Fast and Azure.

[Here's](#) a cut of the original video where Beezy is mentioned.

# About Beezy

Beezy is the premier enterprise collaboration solution for Office 365 and SharePoint. We make collaboration within your organization easy and relevant. By extending the Microsoft productivity stack, we unify the digital workplace and empower end users to better communicate, share, and collaborate across on-premises, cloud, and hybrid environments.

Multi-nationals like Vodafone and Transocean utilize Beezy to make the world smaller, and bring teams together daily. Customers look to Beezy to help them hone their differentiation, improve operations, and align teams behind initiatives and rally individuals to act. As a US technology company, with development in Europe, we understand how important it can be to bring teams together.
